

I had the pleasure of working with Antony Ancil during his tenure at the Higher Colleges of Technology, Fujairah Campus, where I served as Head of Instruction.

Antony was recognised for his outstanding contribution to campus operations, receiving the **HCT Support Staff Award for Exemplary Service during Academic Year 2004–2005** — an award I personally endorsed. This recognition reflected not just his professional competence, but his genuine dedication to the institution and the people around him.

Throughout his 20+ years with HCT across Fujairah, Madinat Zayed, and Ruwais campuses, Antony demonstrated exceptional reliability, technical capability, and a sustained commitment to operational excellence. In **2008, he pioneered the setup of distance learning classrooms connecting two remote campuses** — demonstrating real initiative and technical leadership well ahead of his time.

I have since learned that Antony has continued to grow professionally — independently building a complete digital platform including a bilingual website, a Python-based automation tool, and an AI-powered consultancy in 2026. This is entirely consistent with the self-driven, resourceful professional I knew at HCT.

I recommend Antony Ancil without hesitation for IT Support, Digital Systems Coordination, or Senior Administration roles. He is dependable, technically capable, multilingual, and brings a rare combination of international experience and genuine initiative to everything he does.

Regards,
